

WEBINAR: URBAN KNOWLEDGE-ACTION NETWORK

When: Jan 11, 2018 from 10:30 AM to 2:30 PM (ET) Associated with Community Forum

As a valued partner in Future Earth's Urban Knowledge-Action Network (KAN), it is our great pleasure to invite you to join the first quarterly Urban Knowledge-Action Network (Urban KAN) teleconference on:

Date: Thursday January 11th

Time: 10:30 – 14:30 EST

Location: Future Earth Webinar Interface

One year ago, Future Earth launched the Urban KAN to facilitate a space where diverse actors can interact and confront different knowledge sets and visions of a desirable future to seed innovative ideas that catalyse transformations to sustainability.

Today, the Urban KAN has grown into a broad network of diverse stakeholders, encompassing researchers from diverse disciplines, national and sub-national policy and decision-makers, urban planners and practitioners, non-governmental organizations and many others, that believe that the co-designing of solutions by people and organizations from all walks of life is instrumental to building sustainable urban systems and lifestyles.

The Future Earth secretariat in collaboration with the Urban KAN coordination group, will be presenting the Urban KAN design philosophy for discussion and feedback from members. This teleconference will facilitate engagement and capacity building among all members of the Urban KAN through introducing new members and hosting a suite of presentations for those in the network to learn more about knowledge-action networks, TD research and co-design. Your attendance and participation at this event is greatly appreciated and a critical step in building our future vision for the Urban KAN.

Please get in contact with M'Lisa Colbert at mlisa.colbert@futureearth.org by **January 10th 16:00 EST** to confirm your attendance and receive the webinar agenda and registration code.

We look forward to welcoming you all there!
